

Vikas Pritam S

Backend Developer

Profile

Aspiring backend developer with a strong foundation in building scalable APIs and cloud-integrated systems using Node.js, Express.js, MongoDB, AWS S3, and Firebase. Passionate about system design, performance optimization, and learning modern backend tools.

Education

B.Tech CSE, SRM Institute of Science and Technology, Chennai

August 2024 — June 2028

GPA: 9.5 (Last Semester)

Experience

Member at Codekrafters, Chennai

November 2024 — Present

Foster teamwork and collaboration among club members

Project experience

Online File Management System (Full stack)

Node.js, Express.js, MongoDB, AWS S3, Nextjs

- Created a full stack website for file uploads and folder management with secure, user-based access and S3 storage.

E-Commerce Platform(Full stack)

React.js, Firebase, Vercel

- Built a responsive full stack website with Firebase authentication, dynamic cart, and pagination. Deployed on Vercel.

Media Converter API (Backend)

Node.js, Express.js, MongoDB, AWS S3

- Developed a backend service for media file conversion with S3 integration and scalable API routes.

INTERESTS & OBJECTIVES

- Strong interest in backend engineering, scalable systems, and cloud infrastructure. Currently deepening expertise in Go and exploring concurrent programming models.
- Seeking internship opportunities in backend development, DevOps, or distributed systems.
